LEADING THE WAY IN FIRE PROTECTION

DEPLOYABLE SMOKE & DRAFT CURTAIN

The SmokeStop Draft Curtain is designed to limit smoke and will deploy immediately upon alarm or an emergency condition. Approved as a Smoke & Draft Rated Assembly.

PRODUCT DESCRIPTION

The FIRST flexible, retractable deployable Smoke & Draft Curtain

- Approved to span unlimited widths, heights up to 8m (26ft)
- Certified to UL 1784 Standard Rated Smoke & Draft
- Certified to UL 864 Control Units and Accessories Standard

HOW SMOKESTOP DRAFT CURTAIN WORKS

- Compact, space efficient casing encloses vertical rolling assembly
- High temperature fabric rolling curtain withstanding 204°C (400°F)
- Flexible curtain remains retracted and 'invisible' until activated
- Unique, compact pressure guide retention system holds curtain in place and stops blow out under extreme pressure caused by fire conditions
- Heavy duty bottom bar and pressure guides keep curtain in place

SMOKESTOP DRAFT CURTAIN ADVANTAGES

- Neat, compact, 'invisible' housings, much smaller and lighter than traditional steel shutters
- Neat, compact pressure guide retention system much smaller than traditional steel shutters
- Can be fixed directly to lightweight flexible constructions unlike steel shutters
- Oversize Certification for unlimited widths and long drops
- Unique 'Total Gravity Fail Safe' descent with auto reset after clearing of alarm system
- Compact, unobtrusive, remotely located Controls, synchronised with building's fire and life safety system
- VarioSpeed™ drive system and controls ensure the curtain operates safely with controlled descent, ascent and 'Total Gravity Fail Safe' descent
- 24vDC safe, low voltage motor operators
- Listed and labelled by ITS (Intertek Testing Services)
