

DATA SHEET EMERGENCY EGRESS BUTTON – (ERB-R)

PRODUCT CODE: 29197

UNICLASS: L4231

EPIC: D25

VERSION: Issue H - May 2020

BS 8524
compliant

EMERGENCY EGRESS BUTTON – R

PRODUCT DESCRIPTION

The Emergency Retract Button (ERB) is an optional 'push button' that can be used with the Variospeed®6 ERU (Emergency Retract Unit) and MK5 control systems.

The ERB provides egress through an already deployed Fire Curtain. The 'push and release' action of the ERB signals the Fire Curtain to retract and hold, before redeploying. This allows occupants to egress through the opening, before closing again after a set time period.

- Vandal resistant design.
- Can be installed as surface mount or with recess mount back box.

SPECIFICATION

Input Voltage
24V AC/DC

Material
Stainless Steel (Plate, Bushing and Actuator)

Operating Temperature
-15°C to 55°C (Internal Use)

Dimensions
85mm(W) x 85mm(H) x 35mm(D)
Depth includes button. Depth of rear wiring and mechanism is 25mm.

Weight
100g

IP Rating
IP40

Location
Internal
