EMERGENCY EGRESS BUTTONS

Emergency Egress Buttons (ERB) provide egress through an already deployed Fire Curtain. The 'push and release' action of the ERB signals the Fire Curtain to retract and hold, before redeploying. This allows occupants to egress through the opening, before closing again after a set time period.

29197 - Emergency Egress Button R

29174 - Emergency Egress Button Standard

29181 - Emergency Egress Button Dome

31019 - Emergency Egress Button Deluxe

29186 - Emergency Egress Button Bronze

29187 - Emergency Access Button (push and hold action for emergency services)

OBSTRUCTION WARNING SYSTEM (USE WITH AUDIBLE/VISUAL WARNING SYSTEMS)

The Obstruction Warning System monitors the opening protected by a fire curtain to ensure it is kept clear. If the opening is obstructed the LED beam will be broken and then after a short delay period a warning device will be activated. The warning device will be audible and/or Visual.

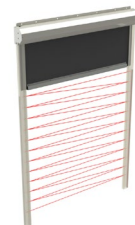

29190 - Obstruction Warning System - Vertical (OVS) - <3.5m

29188 - Obstruction Warning System (OWS) - <60m

10517 Obstruction Warning System - (OWSR) - <5m

29175 - Obstruction Light Curtain (OLC) - <4m

LEADING THE WAY IN FIRE PROTECTION

OPTIONAL EXTRAS

AUDIBLE VISUAL WARNING SYSTEMS

Designed for audio and visual signaling.

187-9653 - Light Warning - (LWC)

31022 - Light and Sound Warning - (LSW)

29085 - Voice Warning - (VWC)

29086 - Voice Warning - (VWR)

REMOTE TEST SWITCHES

Provides localized testing of the associated curtain(s) remotely from the control panel location.

34101 Test Reset Switch - (TRS)

30078 Zone Control Panel Remote - (ZCP-R)

787-3105 - Standard Key Switch

CF001434 - Standard Key Switch - Green

HEAT AND SMOKE DETECTORS

Provides standalone activation signalling to the curtain.

29035 - Heat Detector

29003 - Optical Smoke Detector
